

## Quick Marine Lighting

Brighten up your boat with Italian designed and made LEDs! Quick's Marine Lighting is a range of high-quality products specially designed for the marine environment. Their principle dedication has been the creation of LED light fixtures with solutions that perfectly integrate or replace traditional light sources. Below is a list of the most popular Quick LEDs but if you would like something a little different or want to see the complete range please contact us for a standalone Quick Marine Lighting catalogue. Quick's Marine Lighting range also includes dimmer switches, LED strip lighting, wall lights, table lights, LED light bars and even a pop-up "secret" light. Whatever your lighting requirement, Quick is the answer.
